CUSTOMER: Utica Power

CONTACT: Frank Fields
209-822-3523

Scope of Work includes removal, disassembly, inspection, overhaul and reinstallation of a 24" Sphere Turbine Shut-off Valve. Project is scheduled to begin March 23 with the target completion date April 14.

Upon completion of inspection, MarTech and Utica Power will jointly review the condition of the valve and agree on the necessary repairs.

Utica Power will supply all required abatement service for lead/asbestos removal and Crane service for valve removal and reinstallation.

Project Cost: \$154,750.00 (standard repair)
\$300,000.00 (not to exceed cost)

cost was estimated based on documentation provided by customer and conditions observed during job walk

Thank you for allowing MarTech to quote your important project!

Sincerely,
Patrick Brogan
